

## Roxtec ComSeal™ 15/3 and 30/6

– FOR POWER CABLES

### Extending the compact seal range

The Roxtec ComSeal™ 15/3 and the Roxtec ComSeal™ 30/6 kits are developed for power cables in the range 28-43 mm going into converters, generators and cabinets.

### Lighter modules

Both seals contain the new Roxtec CM 50 modules with Multidiameter™. This solution is

based on removable layers and makes each module adaptable to fit cables of different sizes.

### Quick to install

The seals can be attached to the inside or outside of a structure. They make installation work easy and convenient even in small areas filled with equipment.

### BENEFITS

- Standard kit sizes
- Allow pre-terminated cables
- Approved for IP 55
- Available in EMC versions (IP 54)
- Multidiameter™ by Roxtec – for cables 28-43 mm
