5.2 Specific hazards arising from the substance or mixture

Produces fumes containing harmful gases (carbon monoxide and carbon dioxide) when burning, and, in case of incomplete combustion, aldehyde and other toxic, harmful, irritant or environmentally harmful substances.

5.3 Advice for firefighters

Use normal protective equipment for firemen. Use self-contained open circuit positive pressure compressed air breathing apparatus (SCBA).

Section 6 – Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Use suitable allergy-tested protective gloves when cleaning up.

Dust filter IIb (P2) may be required when cleaning up.

In case of spillage in protected water, call the emergency services immediately.

Do not inhale the product and avoid exposure to skin and eyes.

6.2 Environmental precautions

Always prevent product spill to reach soil, vegetation, drains, sewer system, surface and ground water.

In small amounts, the product released into the natural environment will not cause serious environmental consequences. Large emissions should however be reported to the emergency services and the Environment Agency.

6.3 Methods and materials for containment and cleaning up

Carefully collect the material for combustion waste disposal, then wash the spillage area with water.

Avoid stirring the material up so that it aerates.

Contaminated products should be treated as chemical waste and declared as non-hazardous goods.

6.4 Reference to other sections

See Section 8 and 13 for personal protection equipment and disposal considerations.

Section 7 – Handling and storage

7.1 Precautions for safe handling

Treat the substance as potentially harmful to health.

Wash hands thoroughly after use.
Do not eat, drink or smoke when using this product.
Remove contaminated clothing and protective equipment before you come to an area where meals are taken.

7.2 **Conditions for safe storage, including any incompatibilities**

Store in a cool and dry place (above freezing temperature and not above 30 °C).
Handle in premises which are well-ventilated.
Store in a well-ventilated area, not above eye-level.
Store only in original package.

7.3 **Specific end use**

Not relevant.

Section 8 – Exposure controls/personal protection
